

Ambulatory surgical center attestation to resume or continue providing non-emergent or elective procedures

On April 27, 2020, the Governor issued Executive Order 20-22, that allowed ambulatory surgical centers (ASC) to resume non-emergent or elective procedures, by May 1, 2020 at the earliest, if an ASC is in compliance with Oregon Health Authority (OHA) guidance. [OHA guidance](#) requires ASCs to have adequate personal protective equipment (PPE) on hand, implement and sustain a certain level of PPE usage guidelines and to attest to OHA that the ASC meets these standards.¹

This attestation form must be signed by an individual with legal authority to act on behalf of the ASC.

I, _____ (printed name), on behalf of _____ (name of ASC), attest to the following (please check any of the boxes that apply and supply any additional information):

- The ASC has an adequate 14-day supply of PPE that meets applicable National Institute for Occupational Safety and Health and U.S. Food and Drug Administration on hand appropriate to the number and type of procedures to be performed or an open supply chain, as that is defined in OHA's guidance.
- The ASC implements and sustains conventional strategies, Tier 1 or Tier 2 PPE contingency capacity strategies for PPE usage guidelines as detailed in OHA and Oregon Occupational Safety and Health Administration (OR-OSHA)'s [Interim Guidance: Use of Personal Protective Equipment by Healthcare Personnel in Resource-Constrained Settings](#). The ASC only uses Tier 2 PPE contingency capacity standards if conventional strategies and Tier 1 PPE contingency strategies are not sustainable. Engineering and administrative control measures are or will be fully implemented to the extent possible before implementing PPE contingency capacity strategies.

I certify that the responses in this attestation are accurate and complete. I certify that I have the legal authority to act on behalf of the ASC named above. I understand that the ASC named above must notify OHA immediately and stop non-emergent or elective procedures if the ASC no longer complies with OHA's PPE requirements. I also understand that if OHA determines

¹ Oregon Health Authority Guidance on Resumption and Continued Provision of Non-Emergent and Elective Procedures at Ambulatory Surgical Centers updated July 30, 2020 available at [OHA guidance](#). The definitions in the OHA guidance apply to this attestation.

that an ASC is not in compliance with the PPE requirements, OHA may require the ASC to cease performing non-emergent or elective procedures for a specified period of time.
