

## Wildfire Evacuation Protocol for People Quarantining or Isolating Due to Covid-19

**If you or a household member are quarantining or isolating to prevent the spread of COVID-19, please take the following precautions:**

- If ordered to evacuate, do so immediately. Follow all instructions from fire officials.
- When it is safe, reach out to your local public health authority, who should have already been in contact with you about your isolation/quarantine. They may have solutions to help you continue to isolate/quarantine if you are evacuated.
- Should you be directed to a shelter or other evacuation space, please let officials know you are in isolation/quarantine so that they can take steps to keep you distanced from other evacuees.
- Wear a mask at all times when outside your home, or if you may come into contact with people who do not live with you.
- If you are an older adult or a person with disabilities, reach out to the Aging and Disabilities Resource Connection for information about resources 1-855-ORE-ADRC (1-855-673-2372).
- Practice physical distancing to the greatest extent possible if you must travel outside your home for any reason, including evacuation.
- More information about wildfire safety and your health is available on [healthoregon.org/wildfires](https://healthoregon.org/wildfires). Additional resources can be found by calling 2-1-1.
