**COVID-19 Vaccine Distribution in Oregon by County**

*Phase 1A* is made up of health care professionals, first responders and people who live and work in long-term care facilities. Phase 1B is made up of people who work in child care, preschools, and K-12 schools or districts, as well as people who are 65 and older. The eligibility for phase 1B is staggered and began on Jan. 25 for child care providers, educators, and staff. Older adults are eligible for the COVID-19 vaccine in groups beginning Feb. 8. Oregon’s supply of vaccines is limited and not everyone who is eligible at this time will be able to receive a vaccine. OHA asks for patience and understanding as we all work together to vaccinate Oregonians and end the pandemic.

If you are currently eligible to receive a [COVID-19 vaccine](#), you can find out where and how to receive the vaccine by clicking the county of your residence below.
