

## Day and Overnight Camp Testing

June 30, 2021

### Screening and Testing for Day and Overnight Camp Staff

All unvaccinated youth program staff are encouraged to participate in free weekly screening testing. To register for this federally funded program, staff can complete an enrollment survey [here](#). Staff are not required to disclose their vaccination status to participate.

- All youth program staff are eligible.
- [Screening testing](#) can identify COVID-19 in people who are asymptomatic or pre-symptomatic and reduce the risk of secondary transmission.
- Screening testing can be particularly helpful between camp sessions when cohorts change, for staff who engage with multiple cohorts, and when staff return to overnight camp after spending time away.
- Staff who develop symptoms of COVID-19 should obtain diagnostic testing.

### Screening Testing for Overnight Camps

- Camps may opt into **Voluntary Overnight Camp Arrival Screening** to test overnight campers and staff upon arrival to camp. To register for this federally funded program, overnight camps may contact [schooltesting.covid@dhsoha.state.or.us](mailto:schooltesting.covid@dhsoha.state.or.us). All overnight camps are eligible to participate.

### Diagnostic Testing for Overnight Camps

- Overnight camps may opt-in to [COVID-19 Testing in Oregon's K-12 Schools](#) diagnostic testing program. This program offers free BinaxNOW point-of-care testing resources and is appropriate for staff or campers who develop symptoms or are exposed to a case of COVID-19 while at camp. This successful K-12 program has been expanded to offer this access to overnight camps. To register for this program, camps may contact [schooltesting.covid@dhsoha.state.or.us](mailto:schooltesting.covid@dhsoha.state.or.us).
