## COVID-19 Vaccination Accessibility Kits for Community Partners

OHA is making kits available to community partners who are hosting COVID-19 vaccination events. These kits contain basic materials and information to help make the events more accessible to people with disabilities and people who speak languages other than English.

### The kits include:

Pocketalker amplifiers 	Batteries 	Clear masks 
Small white board 	Flashlights 	Magnifying glasses 
Visual communication cards, including "I Speak" section 	Access information for OHA's telephonic interpretation services 	BY REQUEST ONLY - iPhone to access telephonic interpretation 

[To request a kit, please fill out this form.](#) If your organization is hosting an event independently or are working with your local public health authority, you are still welcome to request a kit. If demand exceeds supply, priority will be given to those organizations working with OHA on their event. Please allow at least one week for delivery of your kit.

Kits do not need to be returned after your event. You are encouraged to keep this kit as a community asset and use it in any future events you hold to better support all our community members.

For questions, please reach out to your OHA representative for more details.
