

If you have [symptoms of COVID-19](#) or if you were in close contact with someone with COVID-19 within the past 14 days, you should get tested regardless of your vaccination status. **While you are waiting for the results of your COVID-19 test, you should stay home and away from others.**

## How much will a COVID-19 test cost?

- **Oregon Health Plan (OHP)** – If you have [OHP coverage](#), testing will be free. Learn more about OHP at [ONE.Oregon.gov](https://one.oregon.gov).
- **Individual and group health insurance** – Most health insurance companies will waive fees for COVID-19 testing if you have symptoms. Contact your health insurance provider for more information.
- **Free community testing events** – Visit [DoINeedACovid19Test.com](https://DoINeedACovid19Test.com) to search for testing events throughout Oregon.

# How can I find a testing site?

- **Have insurance?** Contact your health care provider to find a testing site near you.

- **Use the searchable map** at <https://govstatus.egov.com/or-oha-covid-19-testing> to find a testing site near you.

- **Search for a free community testing event.** Visit [DoINeedACovid19Test.com](http://DoINeedA Covid19Test.com) to search for testing events throughout Oregon.

- **Call 211 for help finding a testing site near you.**

Please do not visit an emergency department for testing, unless you require emergency care for your symptoms. Emergency departments in Oregon are under significant strain responding to the current surge in COVID-19.
